

Patient Controlled Regional Analgesia

Epidural, peripheral nerve blocks and wound infiltration analgesia commonly require the use of pre-filled large standard capacity bags. As patients are becoming more mobile in their recovery period it is important to integrate better these large medication bags into the system. In addition the users require a safe and simple device, without frequent alarms, risk-free programming and a trustworthy history back up. Clear identification of the infusion route from device to patient is a must in order to avoid potential medication infusion error.

Birth delivery analgesia specifically tends to use the "Programmed Automatic Bolus" (PAB) combined with PCA demand facility to optimize pain release during labor.

Micrel is offering the yellow color coded Rythmic Evolution range, to exceed the expected safety, reliability and optimize the comfort required by medical staff and patient in Regional Analgesia. In addition, Rythmic Evolution is "Ready to Connect" providing an instant access to the infusion information and pain history through the web for hospital and home care applications

Optimized ambulatory design

- Compact and lightweight
- Integrate pre-filled bags (50 to 500ml)

Reduced alarm activity

- Long battery life (6 days at 5ml/h)
- Higher occlusion setting
- Automatic restart after occlusion release
- Air in line eliminator

Medication error prevention

- Users customized programming menu
- Protocol library
- Colour coded systems

Innovative "all in one" safety set

- Including spike, anti free flow valve, filter and 2 m extension line (yellow, transparent or green)

Innovations : VAS and PAB

- VAS Pain score registration on the pump with easy historical access
- Programmed Automatic Bolus (PAB) combined with patient bolus demands

Ready to
connect

- A wireless system enables clinicians, nurses and homecare provider to remotely monitor the infusion therapy through the web.
- SMS alert messages can be sent to personnel in charge.

Banana bag for Mini Rythmic Evolution

Rythmic™ Evolution specifications

Delivery modes	• continuous • bolus only • continuous + bolus • Programmed Automatic Bolus (PAB) with combined PCA
Accuracy	+/- 5 %
Flow rate	0.1 to 100 ml/h
Programming units	ml/mg/µg
Concentration	0.1 to 99.9 mg/ml/0.1 to 999.9 µg/ml
Volume to infuse	1 to 9999 ml
Bolus dose	0 or from 0.1 to 60ml with 0.1ml increment
Bolus flow rate	100 ml/h, adjustable from 50 to 100 ml/h with 10 ml/h increment
Lockout interval	0 to 999 minutes
Special functions	Protocol libraries (60 protocols per library) - Dose limit / x hours and Bolus limit / x hours - Loading dose Clinician bolus override - Mandatory priming (enabled, warning only, disabled) .
Therapy monitoring	Recording of patient pain scores with visual analogue scale (VAS) - VAS available in the pump history, printable and computer downloadable - Ready to Connect to www.micrelcare.net for therapy monitoring through the web.
KVO	0.1 to 2.0 ml/h
Automatic restart after occlusion release	Yes
Safety features	Air in line eliminator - Free flow protection according to IEC 601-2-24 - Programming within protocol limits Dedicated therapy front face and sets: - yellow for regional analgesia - green for wound infiltration - blue for others
Alarms & warnings	Occlusion (low 0.8 bar, middle 1.2 bar, high 1.6 bar), near end and end of infusion - Low and depleted battery Dose limit, bolus limit - Open mechanism, preventive maintenance warning...
Access code levels	3
Programming	Protocol libraries programmed with "Rythmic Evolution Therapy Manager" computer software Direct programming on the pump possible
History, infusion graph / printout and PC download	Yes, including 6500 time stamped events event log - "Plug and play" print facility
Battery life	6 days at 5 ml/h with bolus
Power supply	90 to 240 V, 50-60 Hz (with optional adaptor KS5.01.615.x)
Preventive maintenance	Every 3 years

	Mini Rythmic™ Evolution	Rythmic™ Evolution	Rythmic™ Evolution Organiser 101	Rythmic™ Evolution Organiser 501
Weight with battery	300g,	335g,	770 g,	840 g,
Dimensions	130x90x46 mm with transparent locker fitting our Mini Full set 100ml custom bag	130x133x46 mm with transparent locker, fitting our Full set 160ml/200ml custom bag	148 x 249 x 69 mm with transparent locker fitting standard bags up to 100ml	157 x 299 x 82 mm with transparent locker fitting standard bags up to 500ml
Battery	9V disposable cell or internal and rechargeable in 3 h			
Carrying bag	Included : banana bag	Included : belt/shoulder bag	Optional, ref : KM1.YY.451.x	Optional, ref : KM1.YY.418.x
Power adaptor	Optional, ref : KS5.01.615.x	Optional, ref : KS5.01.615.x	Included	Included
Pole clamp	Optional, ref : KS5.04.017.x	Optional, ref : KS5.01.430.x	Optional, ref : KS5.01.525.x	Optional, ref : KS5.01.524.x
Front panel	Standard or yellow colored dedicated to Regional Analgesia
